Message from HoD

I wish to convey my wishes to all the students and faculty members for making this semester a wonderful one. Multiple events has been conducted in the even semester 2022 and many more to be conducted which creates awareness among students for latest technology and industry demands.

- Ashish Kumar Gupta

Educational Tour to “Telecom Department, Uttarakhand Police”

One of the most important benefits of an educational tour is that it subtly develops an

understanding of various social issues around the world. Students get a better grip on the local and the global issues. They become more empathetic and respectful towards other cultures as well as towards their own surroundings.

Department of ECE organized an educational tour to Police Headquarters, Telecom Department, Uttarakhand Police on 6th May 2022. Police Control room was located at 12 Subhash Road, Dehradun.

ASP Uttarakhand Police, Telecom Department Mr. Sunil Negi and his technical team demonstrated and explain the services handling in police control room. The main topics of discussion were importance of Emergency services like dial 100, dial 112, girl safety, call congestion handling, drone patrolling, traffic control, different type of Antennas working in police control room. They also motivate the students to think and work on challenges which UK police are facing.

Flip Classes and Presentations - Advanced Teaching learning process

Presentation skills are one of the essential skill set for students in institutions of higher learning. To help them improve their presentation skills, students are encouraged to use systematic methods to facilitate their presentations in the classroom. The main purpose of emphasizing presentation skills in higher education is to help develop professionalism in the learning environment. In this era of technological advancement, students can enhance their presentation skills using high-tech equipment, thus improving their ability to present information in a professional manner.

Without these kinds of Events the many students feel less confident when speaking in front of large groups. Presentations can be stressful, and many students do not enjoy them and feel nervous when asked to present. Following the newly implemented Presentations and Flip Classes in the department various classes were taken by the students and all students were presented technical topics of their interest.
