Introduction

Shivalik College of Engineering is a prestigious institution that provides its students with a unique blend of professional and academic brilliance. SCE has combined the knowledge of top industry executives and famous academicians, creating a global approach. We are always striving towards our purpose of providing quality education and creating future managers for the industry, which is underpinned by ethical principles and a professional governance structure.

Shivalik College of Engineering has the prestige of entering a new epoch in higher education by designing a distinctive, innovative academic model that is supported by great facilities and significant international collaborations, as well as unmatched industry backing for experiential learning.

Shivalik College of Engineering's academic style gives amazing possibilities to study from the top instructors, love every minute, and advance their profession. Combining academic and research innovation, flexibility, multidisciplinary exposure, placement training, and real-time projects, our academic approach guarantees that you are groomed to be industry ready.

The College's commitment to excellence in teaching and learning is demonstrated by quality education, a scientific, transparent, and objective evaluation/examination system, project-based learning, student-centred policies, a pleasant environment, and a socially active campus life.

Introduction to feedback

Internal Quality Assurance Cell (IQAC) provides a key and significant commitment to improve educational quality and directs the College's efforts and measures toward academic perfection.

Between July 2022 and June 2023, inputs were collected from students, teachers, corporate partners, and alumni (Figure 1).

The quantitative technique was used for this input, and it was combined to ensure both the depth and breadth of the discoveries. The quantitative step included an online survey conducted by Shivalik College of Engineering's IQAC.

The Curriculum Analysis Feedback Report was done for the odd and even semesters from August 16, 2022, to May 31, 2023. Curriculum research includes information on syllabus development, overall programme experience, and appropriate topic sessions, as well as material provided to undergraduate and postgraduate students.

This Curriculum critique includes various questions for stakeholders to respond to, with options such as strongly disagree, disagree, somewhat agree, agree, and highly agree. We may investigate what yield they are seeing by examining their perspective.

Objective of feedbacks

- o To form a Working Group to examine issues relating to student input.
- To give students the chance to remark on the quality of their learning experience, as part of the preparation for and evaluation process.
- o To evaluate the success of academic offering in respect to students' expectations.
- o To offer feedback in order to enhance the student unit's delivery or content.

FEEDBACK PROCESS

The Feedback Process comprises of 3 stages

Stage I (Collection of Feedback): The feedback process is collected online through IQAC, Shivalik College of Engineering.

Stage II (Analysis of feedback): The detailed analysis of feedback is carried out afterward and the action taken report is prepared.

Stage III (Action Taken): The plan of action taken is decided on the basis of action taken report and necessary corrective measures are recommended for the further improvements.

Sample Feedback Form

The feedback is collected in form of online survey via google forms. Links to the respective feedback is shared with concerned stakeholder(s) (Table 2)
